Certifications: Bloomberg Market Concepts; AWS Cloud Practitioner; Standard First Aid & CPR-C; AI Agents for Enterprise (IBM × York Career Fit; capstone: CIBC lending agent on watsonx Orchestrate); Commercial Real Estate Fundamentals (Project Destined)

Work Experience

Mitacs Accelerate Intern, Commercialization Research — Incoming, Dec 2026
Lassonde School of Engineering, York University — *Toronto, ON*
- Customer discovery, segment sizing and go-to-market study for a thermophotovoltaic and wireless power transfer technology

Web Developer — Sep 2026 – Present
University Brand & Marketing, York University — *Toronto, ON*
- Build and maintain web pages and digital communications for York's central channels on the Digital Marketing team
- Migrating York's UN SDG content into the new Sustainability site in WordPress, drafting the pages for Goals 3 to 17

Research Assistant — Jun 2026 – Present
Schulich School of Business, York University — *Toronto, ON*
- Built derivparse, a Python pipeline that crawls SEC EDGAR 10-K and 10-Q filings and extracts derivative-disclosure tables (notionals, fair-value assets and liabilities) into structured research datasets across an S&P 500 sample spanning 2007–2026
- Delivered the stage-one parser, verified outputs and two automated test suites, and set the dataset's verification conventions
- Well-being Research Lab (Prof. Nicole Mead): building a Reddit dataset and coding guide on paid shortcuts and moral judgment

Junior Analyst, Technology & Client Operations — Nov 2023 – Present
IEC Canada Mortgage & Finance (Financial Analyst & Consultant, 2023–24) — *Toronto, ON*
- Designed and built the firm's client-facing website in React / TypeScript, with five mortgage calculators and an AI chatbot
- Prepared client financial records and tax filings in QuickBooks for brokerage operations, cutting processing time 15%

Risk Analyst Intern — Summer 2026
Risk Analytics Institute — *Toronto, ON*
- Designed an end-to-end market-risk reporting system for the institute behind the CRA / CRM risk designations, defining metrics and report packs for three audiences: market investors, risk managers, and CROs / executives
- Architected the data platform: a three-layer database (RAW → STAGING → CURATED) with full lineage and data-quality logging, fed by official market-data APIs (FRED, Bank of Canada Valet, Cboe, U.S. Treasury / NY Fed, OFR)
- Specified a scheduled Python pipeline computing returns, volatility, VaR / ES, drawdowns, stress results, and KRIs

Market Analyst — Summer 2026
The Land Between — *Haliburton, ON*
- Authored a market-research and growth strategy for the charity's Turtle Guardians program, scoped into 13 deliverables spanning market landscape, audience, competitive, fundraising, and sponsorship analysis
- Mapped 11+ audience segments with channel-level outreach strategies, culminating in a five-year roadmap of ten moves
- Analyzed public-opinion data (Gallup, Pew, Eurobarometer, Ipsos) to ground recommendations presented weekly to the COO

Compliance & Data Analyst — Apr 2026 – Sep 2026
Brooks Signs — *Toronto, ON*
- Built a subcontractor compliance dashboard and onboarding database for a national signage manufacturer, centralizing contract, insurance, and documentation status across a 100+ subcontractor network
- Built the bilingual onboarding forms in Jotform (required-field and conditional logic) and guided the team's AI adoption
- Wrote the team manual and video walkthrough, ran staff training, and led outreach with the President's office

Consulting & Project Experience

AI Developer — Spring 2026
The Engage Foundation — *Toronto, ON*
- Built an offline Gamma alternative in a 60-hour two-person team: DeepSeek R1-Distill-14B (chosen over Llama 3.1, Mistral, and Qwen 2.5) served locally via Ollama behind a Python 3.11 / FastAPI backend with /generate, /save, and /export endpoints
- Engineered the prompt layer (outline, per-slide content, and tone prompts with enforced JSON output), the timestamped local-storage module, and the python-pptx pipeline exporting 4 brand-locked slide types
- Built the HTML / CSS / JavaScript frontend (template and tone pickers, live slide preview, PPTX / PDF download); Postman-tested every endpoint, fixed CORS and schema bugs across 12 end-to-end tests, and versioned the build on GitHub

Growth Strategy Analyst — Winter 2026
Roots Funding — *Toronto, ON*
- Conducted market research and competitive analysis for an institutional private markets platform targeting $500M+ AUM; built Excel financial models and investor-facing materials supporting fund positioning

Real Estate Private Equity Intern — Summer 2024; Winter 2025–26
Project Destined (Brookfield Properties Global Real Estate Investments Cup, Summer 2024) — *Toronto, ON*
- Underwrote commercial real estate deals (cap rates, NOI projections, IRR / equity multiples); built Excel acquisition models to stress-test assumptions and presented deal memos to industry mentors (Winter 2025–26 virtual internship)

Education

Schulich School of Business, York University — Expected May 2028
Finance, Economics & Computer Science — *Toronto, ON*
- Activities: Schulich Entrepreneurship Club; Association for Business & Data Analytics; Bangladeshi Students' Association; York MSA; AIESEC; Peer Mentor Program
